

modified) as part of a reference or equivalent method (although he may choose to sell it without such representation), nor to attach a label or sticker to the sampler or analyzer (as modified) under the provisions described above, until he has received notice under 40 CFR part 53.14(c) that the original designation or a new designation applies to the method as modified, or until he has applied for and received notice under 40 CFR 53.8(b) of a new reference or equivalent method determination for the sampler or analyzer as modified.

(h) An applicant who offers PM_{2.5} samplers for sale as part of a reference or equivalent method is required to maintain the manufacturing facility in which the sampler is manufactured as an ISO 9001-registered facility.

(i) An applicant who offers PM_{2.5} samplers for sale as part of a reference or equivalent method is required to submit annually a properly completed Product Manufacturing Checklist, as specified in part 53.

Aside from occasional breakdowns or malfunctions, consistent or repeated noncompliance with any of these conditions should be reported to: Director, National Exposure Research Laboratory, Human Exposure and Atmospheric Sciences Division (MD-77), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

Designation of these reference and equivalent methods is intended to assist the States in establishing and operating their air quality surveillance systems under part 58. Questions concerning the commercial availability or technical aspects of any of these methods should be directed to the appropriate applicant.

In a notice in the April 16, 1998 issue of the **Federal Register** (63 FR 18911), the EPA announced that a method for monitoring PM_{2.5} in the ambient air identified as "RFPS-0498-116, BGI Incorporated Model PQ200 PM_{2.5} Ambient Fine Particle Sampler" was "conditionally" designated as a reference method under § 53.51(b)(2) pending ISO 9001 certification of the BGI manufacturing facility. That certification is now complete, and the designation of the PM_{2.5} reference method based on the BGI Model PQ200 sampler (BGI, Incorporated, 58 Guinan Street, Waltham, MA 02154) is no longer conditional.

Henry L. Longest II,
Acting Assistant Administrator for Research and Development.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6110-1]

Proposed Settlement Under Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed de minimis administrative settlement and opportunity for public comment—Woodward Metal Processing site.

SUMMARY: The United States Environmental Protection Agency (EPA) is proposing to enter into a de minimis administrative settlement to resolve certain claims under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA). Notification is being published to inform the public of the proposed settlement and of the opportunity to comment. This settlement is intended to resolve 48 de minimis parties' liability for certain response costs incurred by EPA at the Woodward Metal Processing Superfund Site in Jersey City, New Jersey.

DATES: Comments must be provided by July 13, 1998.

ADDRESSES: Comments should be addressed to the United States Environmental Protection Agency, Office of Regional Counsel, 290 Broadway—17th Floor, New York, NY 10007, and should refer to: In the Matter of the Woodward Metal Processing Superfund Site: Woodward Metal Processing De Minimis Settlement, U.S. EPA Index No. II-CERCLA-98-0101.

FOR FURTHER INFORMATION CONTACT: U.S. Environmental Protection Agency, Office of Regional Counsel, 290 Broadway—17th Floor, New York, NY 10007; Attention: Virginia A. Curry, Esq. (212) 637-3139, or curry.virginia@epa.mail.epa.gov

SUPPLEMENTARY INFORMATION: In accordance with section 122(i)(1) of CERCLA, notification is hereby given of a proposed administrative de minimis settlement concerning the Woodward Metal Processing Superfund Site located in Jersey City, New Jersey. Section 122(g) of CERCLA provides EPA with authority to settle certain claims for costs incurred by the United States when, as in this case, the settlement involves only a minor portion of the response costs at the Site, the amount of hazardous substances contributed by each settling party is minimal compared with the other hazardous substances at

the Site and the contributed hazardous substances are not more toxic than the other substances at the site.

De minimis parties will pay a total of \$167,345.28 under the terms of the settlement to reimburse EPA for response costs incurred at the Woodward Metal Processing Superfund site.

Dated: March 20, 1998.

William J. Muszynski,

Acting Regional Administrator.
